We have been a host site for a SHARE homeless shelter since 1996. About 20 residents come in at 9:00 pm every night of the year. They sleep in the community hall of the church and then leave at 8:00 am. Recently we planted a garden for the residents to harvest from. We also take some of the produce to North Helpline Foodbank. We are hoping in the future to make even more raised beds and plant more produce. Here's some photos from the garden. Thanks to Elizabeth A for the photos.
