Maple Leaf Lutheran Church has joined hands with Earth Ministry <http://earthministry.org/> to connect Christian faith with care for the Earth. Composed of over 1,400 individuals and congregations, together we believe the National Council of Churches' declaration that "addressing the degradation of this sacred Earth is the moral assignment of our time."

As a Greening Congregation, it is our mission to foster awareness of environmental issues as well as engaging members of our congregation in meaningful creation care activities in the larger community.
